Daniel Voss

Senior full-stack developer

Berlin, Germany | daniel@voss.dev | github.com/dvoss | linkedin.com/in/dvoss

PROFILE

Full-stack developer with nine years of experience building payment, analytics and developer tools. I write TypeScript on both sides of the wire, keep business logic in small pure functions and care about tests, readable code and boring, reliable infrastructure.

EXPERIENCE

Staff engineer, Northwind Labs 2023 - now

Berlin | payments platform

- Led the move of the checkout to a typed, pure-function core used by 1,200 merchants.
- Cut the bundle by 38% and the time to interactive to 1.4 s.
- Mentor for six engineers; owner of the engineering handbook.

Senior engineer, Brightside 2020 - 2023

Remote | realtime dashboards

- Built the streaming pipeline and the dashboard used by 40,000 merchants.
- Introduced contract tests between services: incidents down by a third.

Software engineer, Pixel Barn 2017 - 2020

Berlin | web agency

- Shipped 20+ sites and web apps for local businesses, from design to deployment.

SELECTED PROJECTS

Lattice	Open-source state machine library for TypeScript, 2.1k stars on GitHub.
Pulse Board	Realtime operations dashboard with offline support, in production at three companies.
Tidepool	Command-line log analyser written in Rust; processes 1 GB in under four seconds.

SKILLS

Languages: TypeScript, JavaScript, Go, SQL, some Rust
Frontend: React, Vite, CSS, accessibility, design systems
Backend: Node.js, PostgreSQL, Redis, REST and WebSockets
Tooling: Docker, GitHub Actions, Kubernetes basics, OpenTelemetry

EDUCATION AND LANGUAGES

BSc Computer Science, TU Berlin, 2011 - 2015
German (native), English (fluent), Spanish (conversational)
